Professional Summary

Experienced software developer with over 8 years of hands-on experience in JavaScript, PHP and Dart. Specializes in mobile and backend development, building high-performance applications across mobile and web platforms. Proficient in integrating modern tools and frameworks to create robust, scalable, and maintainable solutions aligned with business goals.

Core Skills

- HTML5/CSS3, JavaScript, TypeScript, Dart, PHP
- Flutter, React, Node, Yii, Laravel
- REST, GraphQL, MySQL, PostgreSQL, MongoDB
- Tailwind, Figma, Responsive Web Design
- Git/GitHub, CI/CD, VS Code, Firebase, Supabase
- Unit/Widget/Integration Testing, Mockito/Mocktail, Agile/Scrum
- Object-Oriented Programming, Functional Programming, API Design, Clean Architecture

Professional Experience

Mobile Engineer (Flutter)

Shopping Centre Management Corp (SM), Jul 2022 – Present

- Developed and maintained cross-platform mobile application using Flutter and Dart, adhering to Clean Architecture principles.
- Implemented state management solutions using Bloc and Riverpod for scalable applications.
- Integrated third-party services including Google Maps, Firebase, GraphQL, and Deeplinking.
- Enhanced user engagement through MoEngage and tracked analytics via AppsFlyer.
- Handled app versioning and release preparation using Git/Github for source control; coordinated deployments to Google Play and Apple App Store via platform-specific release pipelines.

- Wrote and maintained unit tests with Mockito/Mocktail and used Flutter's debugging tools.
- Collaborated with cross-functional teams in Agile sprints to deliver testable, production-ready features.

Backend Engineer (Yii/Laravel)

Department of the Interior and Local Government (DILG), Jan 2017 – Nov 2021

- Developed multiple full-stack web applications using PHP and Yii Framework for internal and government systems.
- Built an Asset Management System to streamline inventory, procurement, and lifecycle management.
- Integrated JasperReports for automated reporting and improving data visibility.
- Engineered DILG Messenger using Node.js and Socket.IO, modeled after Facebook Messenger.
- Developed LGU Development Planning Profile for managing strategic investment plans.
- Built a national portal for assessing local government performance.

Education

Bachelor of Science in Information Technology

Quezon City University, 2013 – 2017

Certifications & Training

- CISSP® SkillUP Course – Simplilearn (Jan 2022)
- Web Design and Security Training – DILG-NAPOLCOM (Oct 2019)
- Youth Congress on IT – Y4IT (2015 & 2016)

Awards & Achievements

- Certificate of Eligibility – Career Service Professional – Nov 2021
- Resource Speaker on SGLGB for Barangay App System – Aug 2019
- Best Capstone Project (Mobile Category) – Apr 2017
